

## Reti ondulate / Crimped weave / Filet ondulés

Usate per ripari, recinzioni e applicazioni varie. Normalmente vengono prodotte con maglia quadra in acciaio al carbonio trafilato.

Su richiesta possiamo fornirle in filo zincato, in filo plastificato, in acciaio inox, in rame, ottone e alluminio. Sono ottenute mediante l'intreccio di fili preventivamente sagomati.

*Used for protections, fences and various other applications, waved nets are normally manufactured square meshed in carbon drawn steel.*

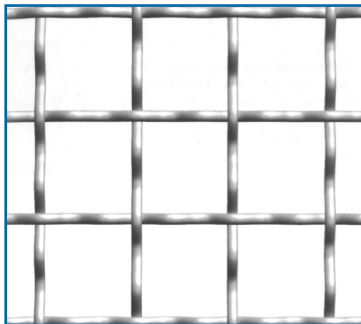

*Upon request we can furnish them in galvanized, plasticized, stainless steel, copper, brass and aluminum wires. These are obtained by the interfacement of pre-shaped wires.*

Usés pour les protections, les clôtures et pour les applications variées. Ils sont normalement produits avec la maille carrée en acier au carbon tréfilé.

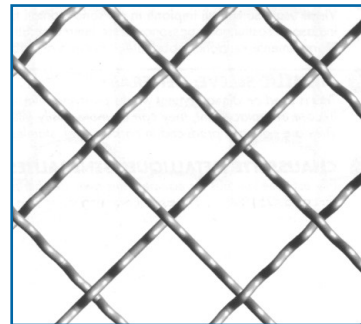

Sur demande nous pouvons les fournir en fil galvanisé, en fil plastifié, acier inoxydable, cuivre rouge, cuivre jaune et aluminium.

Pannelli produzione standard / Standard production panels / Panneaux de production etalon.
