

## Calza metallica / Knitting net / Fil a tricot

Viene usata su tutti gli impianti in cui sono montati filtri purificatori e separatori.

In caso di sostituzione possono essere intercambiabili facilmente rispetto ai tipi già in funzione.

Normalmente vengono fabbricate in acciaio al carbonio, acciaio inox, alluminio, ottone, rame, materiale plastico, ecc.

*This is used on all equipment where purifying filters and separators have been installed.*

*In case of replacement, they can be more easily interchanged compared to those already functioning.*

*They are normally produced in carbon steel, stainless steel, aluminium, brass, copper, plastic material etc.*

Elle est utilisée sur tous les équipements avec des filtres purificateurs et des séparateurs.

En cas de substitution, ils peuvent être échangés plus facilement quant aux types déjà en fonction.

Normalement elles sont fabriquées en acier de carbone, acier inoxydable, aluminium, cuivre rouge, matériel plastique
